Results of Palestinian Public Opinion Poll
No. 50
26-28 March 2015

Background

After the Palestinian Authority (PA) joined the International Criminal Court, Israel has impounded Palestinian tax revenues making the PA unable to pay the full salaries of its employees.

At the last meeting of the Central Council of the Palestine Liberation Organization, the Council gave a recommendation to the PA to cease security coordination with Israel. The PA also called on Palestinian citizens to boycott Israeli goods.

In the recent Israeli elections, Netanyahu and his Likud party won the election and he is expected to form the next Israeli government. Netanyahu had announced during his election campaign that he did not support a solution based on the creation of a Palestinian state alongside Israel. On the other hand, the White House announced the necessity of ending the occupation which has been going on for about fifty years.

The hesitation of donor countries to provide the funds they promised for the reconstruction of the Gaza Strip, led to a lack of progress in the reconstruction process.

After the agreement between Fatah and Hamas to end the Palestinian division, nothing has been implemented of the agreement other than the formation of a unity government.

The Results

Following are the results of the Palestinian Public Opinion Poll no. 50 conducted by the Center for Opinion Polls and Survey Studies at An-Najah National University during the period from 26-28 March 2015. **The University sponsors all polls conducted by its Center.** This poll undertakes the Palestinian public opinion in the decision of the Central Council of the Palestine Liberation Organization to cease security coordination with Israel, the results of the last Israeli elections, Netanyahu's declarations during his election campaign, the Palestinian campaign to boycott Israeli goods, the possibility of conducting presidential, legislative, municipality and local council elections in addition to the political affiliations of Palestinian people.

The sample included 1360 persons whose age group is 18 and above and who have the right to vote. The enclosed questionnaire was distributed on 860 persons from the West Bank and 500 persons from the Gaza Strip. The sample was drawn randomly and the margin of error is about $\pm 3\%$; still 2.4% of the members of the sample refused to answer the questionnaire.

The opinions represented in the results reflect those of the study; they do not, by any means, represent the opinion of An-Najah National University.
