

**“Communicate for GBV”**  
**Project Funded by the United Nations Population Fund UNFPA**

**Outline of Project**

**2017**

**Introduction:**

The Palestinian Initiative for the Promotion of Global Dialogue and Democracy and in cooperation with the United Nations Population Fund (UNFPA) and their promotion to community dialogue to influence public policy, the project “communicate for GBV” Project will be implemented under the new program for the United Nations Fund for Population (UNFPA). It will work to raise the level of legal awareness in RHR & GBV. The project will also progress the development of policies and measures that need to be taken in order to reduce violence and its spread in Palestinian society.

**Project Objectives:**

The project in general aims to raise the level of legal awareness in Reproductive Health Rights (RHR) & Gender Based Violence (GBV). The project will also progress the development of policies and measures that need to be taken in order to reduce violence and its spread in the Palestinian society.

**In Order to Achieve These Goals, *Miftah* will implement these following Activities:**

- ❖ Mobilize community and religious leaders on reproductive health and rights, family planning, GBV and youth health, including community networks such as youth volunteers, health districts committees.
- ❖ Organize Media events to celebrating international women day, 16 days of activisms to combat GBV. This activity was replaced to implement mock court it will focus on family protection from violence law and it will act in the conference will implement during 16 day campaign.
- ❖ Imams and preachers will organize their own sessions in their own localities (in Jenin and Tulkarem districts). And reflection this knowledge to 1800 beneficiaries from the awareness sessions, in their public discourse, which is of a religious nature.
